MINUTES A-P School Board

APLINGTON PARKERSBURG COMMUNITY SCHOOL DISTRICT MINUTES OF THE SPECIAL MEETING OF THE BOARD OF DIRECTORS PARKERSBURG ELEMENTARY SCHOOL WEDNESDAY, MARCH 28, 2018

Meeting called to order by President Kalkwarf at 6:30 p.m.

Members Present: Ellis, Schneiderman, Truax, Kalkwarf, Harken

Members Absent: none

Also Present: Superintendent Thompson, Secretary Choate, Amy May, Brian Buseman, Jana Surratt, Chris May, Kerri Mohwinke, Josie Mostek, Marissa Dodd, Karen Ryan, Kim Koch, Nicole Schipper
 The President welcomed the visitors.
 Moved by Truax, seconded by Ellis and carried unanimously to approve the agenda.

President Kalkwarf opened the floor to the Elementary Staff for their presentation. Elementary Principal Amy May presented the results of a survey given to staff, students and parents asking for their input on the recent elementary reconfiguration. The results of the survey were overwhelmingly positive from all participants. The survey also provided a few areas of concern that can now be addressed in the future. The elementary teachers present spoke on the advantages of grade level collaboration and positive changes that are happening within the buildings and classrooms since the reconfiguration.

Mrs. May and Elementary staff shared recent Literacy Data showing the improved results throughout the elementary grades. The various assessment systems, FAST, STAR & Benchmark Assessments were explained and how that information allows the teachers to better monitor student progress, individualize instruction to the students needs, as well as motivate stu-

dents to improve.

The elementary staff agreed that the TLC positions implemented are fitting well with their needs, supporting their work in professional learning, and helping them move forward in gains in student achievement. The professional development days are providing opportunities for discussion among peers, information exchange, as well as professional training. The staff thanked the board for their continued support.

The board thanked the elementary staff for their presentation and congratulated them on the improvements being made in literacy. The board expressed their appreciation for the hard work and the excitement shown by the staff regarding the programs being implemented. The elementary staff left the meeting at 7:55 p.m.
 Superintendent Thompson discussed with the board next year's funding, the state budget guarantee which allows schools with declining enrollment to still get funding based on last year's enrollment and the new money it will receive. Funding from the State of Iowa is not keeping up with the inflation of operating expenses and the district will need to make budget cuts the next couple of years to keep the District financially sound.

The Board reviewed options to achieve a minimum cost reduction of \$210,000 as well as other options to reduce total spending by an additional \$100,000. Final decisions on cost reduction measures will be determined at the regular April Board meeting.

Announcements: Next Regular Board Meeting on Monday, April 16th at 7:00 p.m. in Parkersburg
 Moved by Ellis, seconded by Harken and carried unanimously to adjourn. Meeting adjourned at 8:56 p.m.

MINUTES City of Parkersburg

CITY OF PARKERSBURG APRIL 2, 2018 PARKERSBURG, IOWA

The City Council of the City of Parkersburg, Iowa met in regular session on Monday, April 2, 2018 at 7:00 P.M. at the Parkersburg Civic Center. Council members present: Bruns, Knock, Schuck, Thorne, and Timmer.

Mayor Perry Bernard called the meeting to order and led those in attendance in reciting the Pledge of Allegiance.

There was a motion by Thorne, seconded by Timmer to approve the minutes. Upon vote, all ayes.

There was a motion by Timmer, seconded by Schuck to approve the bills. Upon vote, all ayes.

Scott Barrett and Rod Luhning provided an update of the Public Works Department. Scott stated that the water plant floor has been repainted. Rod provided information on the last snowfall and things that were done right and ways to improve. There was a conversation about the expectations of some citizens after a heavy snowfall and Rod explained that, unfortunately, there is no way to avoid snow puffs filling in driveways especially when snowfall is heavy. Rod stated it is especially difficult to plow during daylight hours when people are starting to use the streets or after residents begin clearing their driveways or sidewalks.

There was a motion by Schuck, seconded by Bruns to open the Public Hearing on the submission of a CDBG application for a Housing Rehabilitation Grant. Upon vote, all ayes. Jacob Tjaden, presented public hearing comments on behalf of INRCOG. He described the nature and location of the proposed activities which includes: 1) The City of Parkersburg is considering submitting a Community Development Block Grant (CDBG) application for the Housing Fund program as administered by the Iowa Economic Development Authority (IEDA). If funded, the nature of the proposed activities includes the rehabilitation of six (6) owner-occupied single-family homes within the identified project location. 2) The Project Location (Target Area) is identified on the "proposed project location" attachment. Generally, beginning in the northwest boundary of the Area, the Project Location is from the corner of Railroad Street and the unnamed alley between 3rd Street and 2nd Street, east to the corner of Railroad Street and North Johnson Street, south to the corner of North Johnson Street and west along Longview Street including the adjacent properties to the south of Longview Street, south to the corner of Lincoln Street and Grant Street, west to the corner of Grant Street and 2nd Street, north to the corner of 2nd Street and Coates Street, west to the corner of Coates Street and the unnamed alley between 3rd Street and 2nd Street, and north to the corner of the unnamed alley between 3rd Street and 2nd Street and Railroad Street.

Jacob also described how the need for the proposed activities was identified in order to have a significant impact on the appearance of the community, the City decided to designate a target area for the project. In late 2017, City officials conducted a baseline housing assessment to identify potential neighborhoods for this project. City officials, in consultation with the Iowa Northland Regional Council of Governments, finalized the Project Location. The area will be undergoing public infrastructure improvements that this program can capitalize upon. The area is an older part of the community, has a high rate of owner-occupied homes, and not within the 1.0 percent (100-year) flood zone.

The estimated project costs and funding sources include: CDBG General Admin: \$12,000.00, CDBG Rehab Hard costs: \$149,994.00; CDBG Technical Services: \$21,000.00; CDBG Lead Hazard Carrying Costs: \$36,000.00; CDBG Lead Hazard Reduction: \$12,000.00; CDBG Temporary Relocation: \$12,000.00. The total estimated project cost for 6 homes is \$242,994.00. The project cost includes the following details: 1) Lead Hazard Reduction and Temporary Relocation expenses will be used only as needed. 2) All project funds (\$242,994.00) will benefit persons of low and moderate income, per program requirements. 3) Total requested amount of CDBG federal funds: \$224,994.00. The City intends to use local tax incremental financing set-aside (generated by other housing programs) in an amount up

to \$18,000 (\$3,000 per unit) to buy down the cost of the City's project and to make a more competitive application. Local funds would only be used on this project if approved via resolution by the City Council. No business or person will be displaced as a result of the proposed activities. The only relocation that will take place will be the temporary relocation of households in order to comply with lead base paint requirements. In the event of displacement, the City would follow the HUD Relocation and Displacement Policy. The project application will be submitted on or before May 4, 2018.

Jacob also spoke about community development and housing needs assessment of low and moderate income persons. Current goals include: 1) the construction of sanitary sewer infrastructure improvements and compliance with sanitary sewer requirements and compliance permit. 2) Looping of water lines, which allows for maintenance of service if/when a waterline breaks. Specifically, looping also allows for maintenance of fire services and provision of potable water to residents. 3) Housing rehabilitation for Low and Moderate Income (LMI) persons throughout the community. 4) Provide adequate and affordable housing including low rent housing, first time buyer housing, and multi-family housing. 5) Provide job opportunities for LMI persons. Planned or potential activities to address housing and community needs includes: 1) Seek funding through the Community Development Block Grant Program, specifically for sanitary sewer improvements. 2) Seek funding through the Community Development Block Grant Program, specifically for housing rehabilitation activities in the community. 3) Work with city economic development professionals to assist with economic development activities and other improvements.

There were no other public oral or written comments received for or against the proposed grant application. There was a motion by Thorne, seconded by Timmer to close the public hearing. Upon vote, all ayes.

There was a motion by Timmer, seconded by Bruns to consider Resolution #975 approving the Memorandum of Understanding with INRCOG for Technical Services for the Housing Rehabilitation Grant application. Upon vote, all ayes.

There was a motion by Schuck, seconded by Bruns to consider Resolution #976 adopting the Administration Plan for the Housing Rehabilitation Grant application. Upon vote, all ayes.

There was a motion by Schuck, seconded by Thorne to consider Resolution #977 approving the local match for the Housing Rehabilitation Grant application. Upon vote, all ayes.

There was a motion by Bruns, seconded by Schuck to consider Resolution #978 approving the application for the Housing Rehabilitation Grant application. Upon vote, all ayes.

There was a motion by Thorne, seconded by Schuck to consider Resolution #979 supporting Butler-Grundy Development Alliance Rural Business Development Grant application. Upon vote, all ayes.

Engineer Lee Gallentine provided an update on the sewer lining taking place. Lee also informed Mayor Bernard and the City Council that Simmering and Cory has submitted our CDBG grant for the water main project.

Katie LaBree, Parkersburg Economic Development, stated that the PED Board is working on developing short term and long term goals to encompass both economic and community development. She also stated plans on sponsoring a youth entrepreneurship camp this summer for 3rd grade through 12th grade to encourage students to consider entrepreneurship in the A-P area as a future career choice.

Ryan Siems, PFD, provided an update of the Insurance Service Office Public Protection Classification survey recently conducted. Parkersburg's Public Protection Classification improved from a rating of 7 to a rating of 5 within 5 miles of the fire station and 1,000 feet from of a credible water source. The rating also improved for areas within 5 miles of the station but outside 1,000 feet of a credible

water source from a 9 to a 5.YR. Ryan stated this improvement is a result of short term and long term planning done by the City and Fire Department. Some things that helped with the score were equipment upgrades and firefighter attendance to calls and trainings.

Jeremiah Hook, representing the Ambulance Service, stated that both Tonya Hook and Kristy Johnson have satisfied the requirements of becoming an EMT in the State of Iowa and are able to join the ambulance service.
